**FIELD DRESSING KIT**

TS71007

I will never give up, no matter what the situation.  
I will give value in return for value.  
I will provide for those who are dependent upon me.  
I will not be a burden to others or expect others to provide for me.  
I will exchange strong, moral values openly and freely.  
I will work hard and encourage hard work in others.  
I will develop my mind, body and spirit to realize my full potential and assist others  
in the same quest.  
I will continue to learn and be willing to teach others what I know without restraint.  
I will not judge people by their appearance, but by the content of their character,  
usefulness of their intellect and rightness of their actions.  
I will protect freedom, property and liberty.  
I will treat others the way I want to be treated.  
I will not live in fear, nor will I be afraid.

Using the knives for anything other than cutting and deboning meat can result in damage to the knives and could possibly void the warranty. You should never use a blade to force between joints, to pry or to twist. Avoid contacting the blades cutting edge with bone. Bone is very hard and will cause the cutting edge to become dull very quickly. Never chop on bone with a knife. Always use the bone saw to cut through bone and separate joints.

## **WARNING**

The 12 Survivors Skin N' Bones Field Dressing Kit contains knives and is therefore inherently dangerous. This kit should be kept out of reach of children and should only be used by children under close supervision. All pieces of equipment in this kit should be handled with care at all times.

## **WARRANTY**

Please visit [www.12survivors.com](http://www.12survivors.com) for warranty information and details.

## SHARPENING YOUR KNIVES

To sharpen a knife, begin by placing the knife sharpener on a flat surface. Place the blade into the v-shaped carbides. Begin with the section of blade closest to the handle in the carbide and slowly pull the knife through the sharpener while applying light pressure. As you draw the knife through the sharpener, you will feel the carbides removing metal from the blade. It is not necessary to apply large amounts of pressure. This will cause the carbides to remove more material, shortening the life of the knives. Drawing the blade through the sharpener 3-5 times should reshape the blade and hone in the edge. If the knife is very dull, it may require additional passes through the sharpener.

## MAINTENANCE AND CARE

The knives and tools in this set are made from 5Cr15MOV Stainless Steel. This steel is rust resistant but all stainless steels will rust under certain conditions, such as being stored wet. After using the set, clean up should be a breeze. The plastic inserts quickly come out of the case for easy cleaning. Completely wash each insert, knife and tool by hand with warm water, dish soap and a cloth or soft sponge. Using a steel wool pad or something similar can scratch the blade surface, causing degradation and rusting. After you are done washing the inserts, knives and tools, completely dry them before storing away in the dry carry case. Storing the knives or tools wet will surely cause them to rust. DO NOT CLEAN IN A DISH WASHER. The high heats can cause surface rust to start forming of the knives and can cause the plastic inserts to deform. Do not soak the knives and tools overnight or clean with a bleach or bleach solution. Bleach is very caustic and will result in severe rust and pits forming on the knives and tools.

## ABOUT

The 12 Survivors 8-pc Skin N' Bones Field Dressing Kit makes processing your game fast and easy. This unique 5Cr15MOV stainless steel knife kit includes caper, gut hook and fillet knives, a bone saw, ribcage spreader, TPR rubber-coated handheld sharpener, protective gloves and a rugged nylon carrying case complete with removable inserts for easy cleaning and MOLLE straps for quick attachment to your pack.

## FEATURES

- Kit includes everything needed to dress and process game out in the field.
- 8 Pieces: Caper Knife, Gut Hook Knife, Fillet Knife, Rib Cage Spreader, Bone Saw, Handheld Sharpener, Gloves and Nylon Carry Case.
- All knives are 5Cr15MOV Stainless Steel which is easy to sharpen and takes a superb edge.
