

NOMAD SHELTER SYSTEM SET UP

1 Clip bug net to Nomad stand using the four clips per leg.

2 Attach bug net to Nomad Stand ridge pole with toggles.

3 Attach bug net spreader bar going over the Nomad ridge pole.

4 Clip hammock carabiners to the Nomad Stand suspension straps.

5 Cinch string to close the bugnet around hammock rope.

6 Unpack and unzip fly. Drape over stand, and clip fly to Nomad legs, two per side.

7 Cinch the rain hood over the Nomad top hubs.

8 Zip up doors and sides for a bomb proof shelter.

9 Stake down all corners and doors.

OPTIONAL
Roll up doors for ventilation and visibility. Secure side panel toggles around legs.

PRODUCT CARE

ALWAYS STORE YOUR TENT CLEAN AND FREE OF DEBRIS.

To avoid mildew forming, never store your tent damp. Mildew damage is not covered under warranty. Avoid contact with oils such as sun lotion, bug repellent, cooking oil, etc.

NEVER MACHINE WASH OR DRY YOUR TENT.

For localized cleaning, use a sponge and warm water. When cleaning the entire tent, wash in a tub of cold water with a cleaner made specifically for tents. Rinse very well. Never use hot water, bleach, dish washing liquid, etc. Pitch your tent in the shade or line dry only.

SYNTHETIC FABRICS ARE DAMAGED BY OVEREXPOSURE TO UV LIGHT.

Careful site selection in the shade and avoidance of extended periods of sun exposure (especially at high altitude) will increase the life of your tent. UV damage is not covered under warranty.
