# HERO 6 BLACK

HERO6 Black transforms your adventures into incredible QuikStories right on your phone.[1]

With its all-new GP1 chip, next-level video stabilisation and 2x the performance,[2] looking good has never been so easy. Add voice control and a durable, waterproof design and HERO6 Black is the ultimate GoPro for sharing life as you live it.

QUIK STORIES

What's Included

KEY FEATURES + BENEFITS

QuikStories Enabled
HERO6 Black sends your footage to your phone where the app transforms it into a stunning edited video – automatically.[1]

2x the Performance
With 4K60 and 1080p240 video, HERO6 Black delivers 2x the performance compared to HERO5 Black.

Best-Ever Image Quality
With an all-new GP1 chip optimised for GoPro capture, HERO6 Black delivers vastly improved image quality and smooth, stabilised footage.

Next-Level Stabilisation
With our most advanced video stabilisation yet, HERO6 Black captures incredibly smooth footage, whether it's handheld or mounted to your gear.

3x Faster Offload Speeds
Featuring 5 GHz Wi-Fi, you can copy photos and videos over to your phone faster than with HERO5 Black.[3]

Rugged + Waterproof
Durable by design, HERO6 Black is waterproof to 10 m without a housing.

Improved Low-Light Video + Photos
Capture crisp, clear video and photos, even in low-light conditions.

GPS
HERO6 Black captures your GPS path, speed, elevation gain and more. Add your stats to your videos in the Quik desktop app.[4]

Footnotes

[1] QuikStories requires the GoPro and Quik mobile apps, available free for iOS® and Android™. To create a QuikStory, your HERO6 Black must be connected to the GoPro app.
[2] Compared to HERO5 Black.
[3] Your phone model and region must both support 5 GHz. Otherwise, 2.4 GHz is available. Actual offload speeds may vary based on environmental conditions. Offloading media from your GoPro camera to your phone does not use mobile data.
[4] The Quik desktop app is required to add GPS data overlays to your videos. Download it for free at **gopro.com/apps.**
