

ANNOUNCED: Q1 2018

FLYTHROUGH
1988

an RJ MARTIN design

Designed by RJ Martin, the Flythrough features RJ's unique "See-Through Pivot." This oversized pivot is hollow in the center, letting you "see through" it. The new Flythrough also has a handle cutout behind the pivot that lets you see the end of the blade tang when the blade is open. Both of these features add attention-getting interest to this striking knife.
