### KEY FEATURES

- Built of custom spec'd 500D CORDURA® with Teflon® and PU coatings for maximum durability, UV, and weather protection
- High abrasion neoprene
- Futura Yoke easily macro adjusts to the torso length allowing the proper amount of stand-off between the back and frame
- BVS – Bolstered Ventilation and Stability system– allows for a stable, secure fit over body armor
- Auto Lock buckles
- MOLLE on front for attaching accessories

### PRODUCT DESCRIPTION

The LOAD SLING is the most basic method to lash objects to the NICE Frame. This simple design has two adjustable straps to the top and each side. This simple design is reinforced with a carbon-fiberglass stay to maintain rigidity. Its wide range of adjustability will conform to any load you need to carry.
